## N a t i o n a l G u a r d

### Community Outreach

The Montana National Guard (MTNG) will conduct community presentations of our “Picking up the Pieces” DVD along with a short presentation on Post Traumatic Stress Disorder (PTSD) in 20 communities that host a National Guard Armory. Our goal is to provide education on the Guard’s progress to address PTSD, elevate public awareness, and involve Montana communities with our efforts to address the issues of PTSD within the Montana National Guard and other service components. This is a community event and the public is welcome to attend.
